CONTINGENT FOREIGN LIABILITIES
of the United States Government

March 31, 1980

COMPLETED

CONTINGENT FOREIGN LIABILITIES
of the United States Government

U.S. Treasury Department

**Office of the Assistant Secretary
for International Affairs**

PREFACE

This report on the contingent liabilities of the U.S. Government on its contracts of foreign insurance and guarantee has been in compliance with section 634 (a)(4) of the Foreign Assistance Act of 1961 (P.L. 87-195, as amended).

The foreign insurance and guarantees reported originated under authority of the following legislation:

OPIC and AID Housing Guaranty Program:
Foreign Assistance Act of 1966 (P.L. 89-583, as amended) and predecessor legislation

Eximbank: Export-Import Bank Act of 1945 (P.L. 79-173, as amended)

DSAA: Arms Export Control Act of 1976 (P.L. 90-629, as amended) and predecessor legislation.

The reporting system whereby these data are collected is still under development and has not been perfected. The user of these reports should be aware that the data are as reported by respondent agencies and have not been edited by the Department of the Treasury. Imperfections in the reported data include:

1. Contingent liability amounts reported by the Export-Import Bank include adjustments to the insured shipment estimates of the previous year, and in cases where no shipments are anticipated for the current year, the reported amount may be negative. This practice of including adjustments to the insured shipment estimates of the previous year will be discontinued in the near future.

2. The Defense Security Assistance Agency insures certain foreign credits (loans) of the Federal Financing Bank and, thus, such Defense Security Assistance Agency contingent liabilities would be paid to the U.S. Government in the event of a foreign obligor default. These Defense Security Assistance Agency program liabilities are excluded from all data in the main report. A separate table (see table V) is included for these guarantees. The exclusion from the main report of Defense Security Assistance Agency guarantees of Federal Financing Bank credits allows calculation of the total U.S. Government risk exposure on foreign loans, and foreign insurance and guarantees by adding the amount of Foreign Credits outstanding from the Foreign Credit Report and the Contingent Liability from this report without double counting the amount of foreign credits extended by the Federal Financing Bank. The user should note, however, that the contingent liability of the Defense Security Assistance Agency on its contracts of insurance of private investors (non-Federal Financing Bank) with foreign obligors is contained in the data of the main report.

The data are compiled from reports submitted to the Department of the Treasury by the various operating agencies pursuant to Treasury Circular No. 1080, as revised January 26, 1976.

The Department of the Treasury appreciates the cooperation of the U.S. Government agencies in providing the necessary data for this report.

DEFINITION OF TERMS

Expiration Date - The date (year and month) on which the agency's liability ceases for a given contract. However, some of the reported data reflect the date of termination of coverage rather than the date of termination of an agency's liability, i.e., under the provisions of some contracts the insured party has the right to file a claim within a specified period after the coverage date of the contract. In such cases the agencies liability may extend beyond the reported dates by as much as two years.

Contingent Liability - The maximum recoverable amount of disbursed and still outstanding credit plus undisbursed balances, and interest liability under the contract insured or guaranteed by an agency as of the close of the quarter. In some cases, this can result in the contingent liability exceeding the project amount. Where more than one type of coverage is contracted for from an agency, the contingent liability listed is the single highest amount of policy (contract) coverage in force. In the event of claim, it is highly improbable that multiple payments would be made under all policies carried by the insured.

Net Claims Paid - The amount of net claims paid is the sum of all benefits and expenses paid less all benefits and expenses recovered. Net claims paid do not include claims in litigation or unresolved arbitration, or the amounts of claims settlement guarantees.

Pending Claims - The amount which an insured or guaranteed party has formally claimed to have sustained a loss, but on which the agency has made no final decision as to the validity of the claim.

Other Claims Paid - The aggregate total of net claims paid on contracts having a contingent liability of more than one million dollars, but which can not yet be associated with a specific and current contract of insurance or guarantee.

Project Amount - The value of the total transaction, part or all of which may be covered by a U.S. Government agency guarantee or insurance contract.

EXPLANATION OF TABLES

The reported contingent liability of the U.S. Government is presented first (I) for all foreign obligors which is followed by the component obligor divisions of (II) official obligors and (III) private obligors. Within each of these obligor divisions are included tables which list a) total program contingent liability of programs in effect within each country. The fourth (IV) table lists, by program within country, the detail of individual contracts of more than one million dollars and then the aggregate sum of those contracts of one million dollars or less; it also shows the project amount for each such contract. The fifth (V) and last table lists the Defense Security Assistance Agency's contingent liability to the Federal Financing Bank (a U.S. Government agency); these data are not included in the totals of any other table.

- I. All Foreign Obligor

CONTINGENT FOREIGN LIABILITIES
of the United States Government

U.S. Treasury Department

Office of the Assistant Secretary
for International Affairs

PREFACE

This report on the contingent liabilities of the U.S. Government on its contracts of foreign insurance and guarantee has been in compliance with section 634 (a)(4) of the Foreign Assistance Act of 1961 (P.L. 87-195, as amended).

The foreign insurance and guarantees reported originated under authority of the following legislation:

OPIC and AID Housing Guaranty Program:
Foreign Assistance Act of 1966 (P.L. 89-583, as amended) and predecessor legislation

Eximbank: Export-Import Bank Act of 1945 (P.L. 79-173, as amended)

DSAA: Arms Export Control Act of 1976 (P.L. 90-629, as amended) and predecessor legislation.

The reporting system whereby these data are collected is still under development and has not been perfected. The user of these reports should be aware that the data are as reported by respondent agencies and have not been edited by the Department of the Treasury. Imperfections in the reported data include:

1. Contingent liability amounts reported by the Export-Import Bank include adjustments to the insured shipment estimates of the previous year, and in cases where no shipments are anticipated for the current year, the reported amount may be negative. This practice of including adjustments to the insured shipment estimates of the previous year will be discontinued in the near future.

I

II

2. The Defense Security Assistance Agency insures certain foreign credits (loans) of the Federal Financing Bank and, thus, such Defense Security Assistance Agency contingent liabilities would be paid to the U.S. Government in the event of a foreign obligor default. These Defense Security Assistance Agency program liabilities are excluded from all data in the main report. A separate table (see table V) is included for these guarantees. The exclusion from the main report of Defense Security Assistance Agency guarantees of Federal Financing Bank credits allows calculation of the total U.S. Government risk exposure on foreign loans, and foreign insurance and guarantees by adding the amount of Foreign Credits outstanding from the Foreign Credit Report and the Contingent Liability from this report without double counting the amount of foreign credits extended by the Federal Financing Bank. The user should note, however, that the contingent liability of the Defense Security Assistance Agency on its contracts of insurance of private investors (non-Federal Financing Bank) with foreign obligors is contained in the data of the main report.

The data are compiled from reports submitted to the Department of the Treasury by the various operating agencies pursuant to Treasury Circular No. 1080, as revised January 26, 1976.

The Department of the Treasury appreciates the cooperation of the U.S. Government agencies in providing the necessary data for this report.

DEFINITION OF TERMS

- Expiration Date - The date (year and month) on which the agency's liability ceases for a given contract. However, some of the reported data reflect the date of termination of coverage rather than the date of termination of an agency's liability, i.e., under the provisions of some contracts the insured party has the right to file a claim within a specified period after the coverage date of the contract. In such cases the agencies liability may extend beyond the reported dates by as much as two years.
- Contingent Liability - The maximum recoverable amount of disbursed and still outstanding credit plus undisbursed balances, and interest liability under the contract insured or guaranteed by an agency as of the close of the quarter. In some cases, this can result in the contingent liability exceeding the project amount. Where more than one type of coverage is contracted for from an agency, the contingent liability listed is the single highest amount of policy (contract) coverage in force. In the event of claim, it is highly improbable that multiple payments would be made under all policies carried by the insured.
- Net Claims Paid - The amount of net claims paid is the sum of all benefits and expenses paid less all benefits and expenses recovered. Net claims paid do not include claims in litigation or unresolved arbitration, or the amounts of claims settlement guarantees.
- Pending Claims - The amount which an insured or guaranteed party has formally claimed to have sustained a loss, but on which the agency has made no final decision as to the validity of the claim.

Other Claims Paid - The aggregate total of net claims paid on contracts having a contingent liability of more than one million dollars, but which can not yet be associated with a specific and current contract of insurance or guarantee.

Project Amount - The value of the total transaction, part or all of which may be covered by a U.S. Government agency guarantee or insurance contract.

EXPLANATION OF TABLES

The reported contingent liability of the U.S. Government is presented first (I) for all foreign obligors which is followed by the component obligor divisions of (II) official obligors and (III) private obligors. Within each of these obligor divisions are included tables which list a) total program contingent liability of programs in effect within each country. The fourth (IV) table lists, by program within country, the detail of individual contracts of more than one million dollars and then the aggregate sum of those contracts of one million dollars or less; it also shows the project amount for each such contract. The fifth (V) and last table lists the Defense Security Assistance Agency's contingent liability to the Federal Financing Bank (a U.S. Government agency); these data are not included in the totals of any other table.

CONTINGENT FOREIGN LIABILITIES
of the United States Government

U.S. Treasury Department

Office of the Assistant Secretary
for International Affairs

PREFACE

This report on the contingent liabilities of the U.S. Government on its contracts of foreign insurance and guarantee has been in compliance with section 634 (a)(4) of the Foreign Assistance Act of 1961 (P.L. 87-195, as amended).

The foreign insurance and guarantees reported originated under authority of the following legislation:

OPIC and AID Housing Guaranty Program:
Foreign Assistance Act of 1966 (P.L. 89-583, as amended) and predecessor legislation

Eximbank: Export-Import Bank Act of 1945 (P.L. 79-173, as amended)

DSAA: Arms Export Control Act of 1976 (P.L. 90-629, as amended) and predecessor legislation.

The reporting system whereby these data are collected is still under development and has not been perfected. The user of these reports should be aware that the data are as reported by respondent agencies and have not been edited by the Department of the Treasury. Imperfections in the reported data include:

1. Contingent liability amounts reported by the Export-Import Bank include adjustments to the insured shipment estimates of the previous year, and in cases where no shipments are anticipated for the current year, the reported amount may be negative. This practice of including adjustments to the insured shipment estimates of the previous year will be discontinued in the near future.

2. The Defense Security Assistance Agency insures certain foreign credits (loans) of the Federal Financing Bank and, thus, such Defense Security Assistance Agency contingent liabilities would be paid to the U.S. Government in the event of a foreign obligor default. These Defense Security Assistance Agency program liabilities are excluded from all data in the main report. A separate table (see table V) is included for these guarantees. The exclusion from the main report of Defense Security Assistance Agency guarantees of Federal Financing Bank credits allows calculation of the total U.S. Government risk exposure on foreign loans, and foreign insurance and guarantees by adding the amount of Foreign Credits outstanding from the Foreign Credit Report and the Contingent Liability from this report without double counting the amount of foreign credits extended by the Federal Financing Bank. The user should note, however, that the contingent liability of the Defense Security Assistance Agency on its contracts of insurance of private investors (non-Federal Financing Bank) with foreign obligors is contained in the data of the main report.

The data are compiled from reports submitted to the Department of the Treasury by the various operating agencies pursuant to Treasury Circular No. 1080, as revised January 26, 1976.

The Department of the Treasury appreciates the cooperation of the U.S. Government agencies in providing the necessary data for this report.

DEFINITION OF TERMS

Expiration Date - The date (year and month) on which the agency's liability ceases for a given contract. However, some of the reported data reflect the date of termination of coverage rather than the date of termination of an agency's liability, i.e., under the provisions of some contracts the insured party has the right to file a claim within a specified period after the coverage date of the contract. In such cases the agencies liability may extend beyond the reported dates by as much as two years.

Contingent Liability - The maximum recoverable amount of disbursed and still outstanding credit plus undisbursed balances, and interest liability under the contract insured or guaranteed by an agency as of the close of the quarter. In some cases, this can result in the contingent liability exceeding the project amount. Where more than one type of coverage is contracted for from an agency, the contingent liability listed is the single highest amount of policy (contract) coverage in force. In the event of claim, it is highly improbable that multiple payments would be made under all policies carried by the insured.

Net Claims Paid - The amount of net claims paid is the sum of all benefits and expenses paid less all benefits and expenses recovered. Net claims paid do not include claims in litigation or unresolved arbitration, or the amounts of claims settlement guarantees.

Pending Claims - The amount which an insured or guaranteed party has formally claimed to have sustained a loss, but on which the agency has made no final decision as to the validity of the claim.

Other Claims Paid - The aggregate total of net claims paid on contracts having a contingent liability of more than one million dollars, but which can not yet be associated with a specific and current contract of insurance or guarantee.

Project Amount - The value of the total transaction, part or all of which may be covered by a U.S. Government agency guarantee or insurance contract.

EXPLANATION OF TABLES

The reported contingent liability of the U.S. Government is presented first (I) for all foreign obligors which is followed by the component obligor divisions of (II) official obligors and (III) private obligors. Within each of these obligor divisions are included tables which list a) total program contingent liability of programs in effect within each country. The fourth (IV) table lists, by program within country, the detail of individual contracts of more than one million dollars and then the aggregate sum of those contracts of one million dollars or less; it also shows the project amount for each such contract. The fifth (V) and last table lists the Defense Security Assistance Agency's contingent liability to the Federal Financing Bank (a U.S. Government agency); these data are not included in the totals of any other table.

CONTINGENT FOREIGN LIABILITIES
of the United States Government

U.S. Treasury Department

**Office of the Assistant Secretary
for International Affairs**

PREFACE

This report on the contingent liabilities of the U.S. Government on its contracts of foreign insurance and guarantee has been in compliance with section 634 (a)(4) of the Foreign Assistance Act of 1961 (P.L. 87-195, as amended).

The foreign insurance and guarantees reported originated under authority of the following legislation:

OPIC and AID Housing Guaranty Program:
Foreign Assistance Act of 1966 (P.L. 89-583, as amended) and predecessor legislation

Eximbank: Export-Import Bank Act of 1945 (P.L. 79-173, as amended)

DSAA: Arms Export Control Act of 1976 (P.L. 90-629, as amended) and predecessor legislation.

The reporting system whereby these data are collected is still under development and has not been perfected. The user of these reports should be aware that the data are as reported by respondent agencies and have not been edited by the Department of the Treasury. Imperfections in the reported data include:

1. Contingent liability amounts reported by the Export-Import Bank include adjustments to the insured shipment estimates of the previous year, and in cases where no shipments are anticipated for the current year, the reported amount may be negative. This practice of including adjustments to the insured shipment estimates of the previous year will be discontinued in the near future.

2. The Defense Security Assistance Agency insures certain foreign credits (loans) of the Federal Financing Bank and, thus, such Defense Security Assistance Agency contingent liabilities would be paid to the U.S. Government in the event of a foreign obligor default. These Defense Security Assistance Agency program liabilities are excluded from all data in the main report. A separate table (see table V) is included for these guarantees. The exclusion from the main report of Defense Security Assistance Agency guarantees of Federal Financing Bank credits allows calculation of the total U.S. Government risk exposure on foreign loans, and foreign insurance and guarantees by adding the amount of Foreign Credits outstanding from the Foreign Credit Report and the Contingent Liability from this report without double counting the amount of foreign credits extended by the Federal Financing Bank. The user should note, however, that the contingent liability of the Defense Security Assistance Agency on its contracts of insurance of private investors (non-Federal Financing Bank) with foreign obligors is contained in the data of the main report.

The data are compiled from reports submitted to the Department of the Treasury by the various operating agencies pursuant to Treasury Circular No. 1080, as revised January 26, 1976.

The Department of the Treasury appreciates the cooperation of the U.S. Government agencies in providing the necessary data for this report.

DEFINITION OF TERMS

- Expiration Date - The date (year and month) on which the agency's liability ceases for a given contract. However, some of the reported data reflect the date of termination of coverage rather than the date of termination of an agency's liability, i.e., under the provisions of some contracts the insured party has the right to file a claim within a specified period after the coverage date of the contract. In such cases the agencies liability may extend beyond the reported dates by as much as two years.
- Contingent Liability - The maximum recoverable amount of disbursed and still outstanding credit plus undisbursed balances, and interest liability under the contract insured or guaranteed by an agency as of the close of the quarter. In some cases, this can result in the contingent liability exceeding the project amount. Where more than one type of coverage is contracted for from an agency, the contingent liability listed is the single highest amount of policy (contract) coverage in force. In the event of claim, it is highly improbable that multiple payments would be made under all policies carried by the insured.
- Net Claims Paid - The amount of net claims paid is the sum of all benefits and expenses paid less all benefits and expenses recovered. Net claims paid do not include claims in litigation or unresolved arbitration, or the amounts of claims settlement guarantees.
- Pending Claims - The amount which an insured or guaranteed party has formally claimed to have sustained a loss, but on which the agency has made no final decision as to the validity of the claim.

Other Claims Paid - The aggregate total of net claims paid on contracts having a contingent liability of more than one million dollars, but which can not yet be associated with a specific and current contract of insurance or guarantee.

Project Amount - The value of the total transaction, part or all of which may be covered by a U.S. Government agency guarantee or insurance contract.

EXPLANATION OF TABLES

The reported contingent liability of the U.S. Government is presented first (I) for all foreign obligors which is followed by the component obligor divisions of (II) official obligors and (III) private obligors. Within each of these obligor divisions are included tables which list a) total program contingent liability of programs in effect within each country. The fourth (IV) table lists, by program within country, the detail of individual contracts of more than one million dollars and then the aggregate sum of those contracts of one million dollars or less; it also shows the project amount for each such contract. The fifth (V) and last table lists the Defense Security Assistance Agency's contingent liability to the Federal Financing Bank (a U.S. Government agency); these data are not included in the totals of any other table.

- I. All Foreign Obligors
